HealthRays™ *Guatemala*

A project to bring
digital x-ray technology
to those in need

The Global Impact of X-Ray Technology

One of the most basic tools of modern health care is the x-ray. But as many as four billion people around the globe have little or no access to simple x-ray technology. Life spans and productivity can be dramatically improved where x-rays are available. HealthRays addresses this issue by bringing digital x-ray technology to those in need.
